November 9, 2021

Members of the Board of Trustees  
Lisle Library District  
Lisle, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lisle Library District, Illinois (the Library), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Library's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lisle Library District, Illinois, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lisle Library District, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information and supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**LISLE LIBRARY DISTRICT  
LISLE, ILLINOIS**

**Management's Discussion and Analysis  
June 30, 2021**

---

---

Our discussion and analysis of the Lisle Library District's financial performance provides an overview of the Library's financial activities for the fiscal year ended June 30, 2021. Please read it in conjunction with the Library's basic financial statements, which can be found in the basic financial statements section of this report.

**FINANCIAL HIGHLIGHTS**

- The net position increased by \$347,923 for the year ended June 30, 2021 compared to a restated net position of \$11,887,745 on June 30, 2020.
- During the year, government-wide revenues totaled \$4,121,853, while government-wide expenses totaled \$3,773,930, resulting in an increase to net position of \$347,923.
- Beginning net position was restated due to the implementation of a capital asset appraisal.

**USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances.

For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Library's operation in more detail than the government-wide statements by providing information about the Library's most significant funds.

**Government-Wide Financial Statements**

The government-wide financial statements provide readers with a broad overview of the Library's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the Library's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Library's property tax base, is needed to assess the overall health of the Library.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements report functions of the Library that are principally supported by taxes and charges for services revenues (governmental activities). The governmental activities of the Library include public library.

**USING THIS ANNUAL REPORT - Continued**

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Library only maintains governmental funds.

**Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Library's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Library maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Special Reserve Fund, both of which are considered major funds. Data from the other two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Library adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Library, assets/deferred outflows exceeded liabilities/deferred liabilities by \$12,235,668.

A large portion of the Library's net position, \$2,776,231, reflects its investment in capital assets (for example, land, construction in progress, buildings and improvements, equipment and furnishings), less any related debt used to acquire those assets that is still outstanding. The Library uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

An additional portion, \$331,430, of the Library's net position represents resources that are subject to external restrictions on how they may be used. The remaining \$9,128,007 represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Net position of the Library's governmental activities increased from \$11,887,745 to \$12,235,668.

Revenues of \$4,121,853 exceeded expenses of \$3,773,930, resulting in the increase to net position in the current year of \$347,923.

**Governmental Activities**

In the current year, governmental net position increased \$347,923, an increase of 2.9 percent. Expenses decreased by \$637,361 in the current year (\$3,773,930 in 2021 compared to \$4,411,291 in 2020) mainly as a result in the increase in the net pension asset and related items for IMRF. This decrease in expenses was offset by the overall decrease in revenues of \$340,232, mainly due to decreases in property taxes of \$157,446 and in interest of \$180,618.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued**

**Governmental Activities - Continued**

The following table graphically depicts the major revenue sources of the Library. It depicts very clearly the reliance of property taxes to fund governmental activities.

The Library primarily relies on general revenues such as property taxes and personal property replacement taxes. In 2020, the Library abolished overdue fines which has affected desk revenue. The Library has implemented other means to replenish desk revenue by adding services with fees such as license sticker renewals.

**FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

As noted earlier, the Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds**

The focus of the Library's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of \$9,010,988 which is (0.8) percent higher than last year's ending fund balance of \$9,080,163.

The General Fund reported a decrease of \$135,966 and included a transfer to the Special Reserve Fund of \$300,000. The Special Reserve Fund reported an increase of \$98,154, including the transfer from the General Fund of \$300,000. In the current year, total governmental fund balances decreased by \$69,175.

**LISLE LIBRARY DISTRICT  
LISLE, ILLINOIS**

**Management's Discussion and Analysis  
June 30, 2021**

**GENERAL FUND BUDGETARY HIGHLIGHTS**

During the year, no supplemental amendments were made to the budget for the General Fund.

The General Fund actual revenues were lower than budgeted revenues. Actual revenues for the current year were \$3,812,865, compared to budgeted revenues of \$3,948,550. This resulted mainly from lower than expected interest income of \$119,658.

The General Fund actual expenditures were lower than budgeted expenditures. Actual expenditures totaled \$3,648,831 while budgeted expenditures totaled \$4,030,135. This resulted primarily from lower than anticipated spending in employee costs of \$173,940 and capital outlay of \$92,307.

**CAPITAL ASSETS**

The Library's investment in capital assets for its governmental activities as of June 30, 2021 was \$2,776,231 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, and equipment and furnishings.

	<u>Capital Assets - Net of Depreciation</u>	
	2021	2020
Land	\$ 535,528	535,528
Construction in Progress	141,387	—
Library Materials	926,691	960,984

Equipment and Furnishings	113,204	100,184
	<u>2,776,231</u>	<u>2,755,857</u>

This year's additions to capital assets included:

Construction in Progress	\$ 141,387
Library Materials	409,209
Equipment and Furnishings	<u>36,558</u>
	<u><u>587,154</u></u>

Additional information on the Library's capital assets can be found in Note 3 of this report.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The Library's elected officials and staff considered many factors when setting the fiscal-year 2022 budget. Those factors include tax rates, patron services, resources, and capital improvement projects. The Library is faced with similar economic challenges as other local municipalities, including inflation and unemployment rates. The Library is committed to providing high quality library services to its constituents, while remaining a fiscally responsible unit of government.

After many years of thoughtful planning and responsible saving, the Library has budgeted for a 7.7M renovation. The renovation shall be primarily funded using the Library's operational and special reserves. This funding strategy was intentional, so not to burden District taxpayers.

The renovation will focus on accessibility, functionality, and conveniences for our patrons. Project inclusions: family restrooms, rightsizing the Youth Services Department, creating a Teen space, adding more study rooms, installing a drive-up service window, creating an outdoor reading/programming space, enhancing RFID technology, optimizing sightlines/security, improving IT infrastructure, and increasing electrical access throughout facility.

The Library has hired a financial advisory firm to assist with the financial planning of this project. Per the project plan, the Library plans to align levy increases with the CPI to continue to provide quality services, resources, and programs moving forward. The Library will also rely on its investment and public finance firm to properly document and track project payments, assist with budgeting, and ensure that the Library optimizes returns on investments during the next fiscal year.

In March 2020, the governor declared a state of emergency due to the COVID-19 virus. The economic impact of the State of Illinois' Executive Order imposing "stay at home" restrictions may be widespread and may last for several years. Management believes that the financial position of the District heading into this event will allow it to adapt to any financial impact in FY2022. Management will continue to carefully monitor the situation and evaluate its options for this and following years' budgetary position as the situation continues to unfold.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the Library's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to Director, Tatiana Weinstein at the Lisle Library District, 777 Front Street, Lisle, IL 60532 | [tatiana@lislelibrary.org](mailto:tatiana@lislelibrary.org) | 630-971-1675.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Lisle Library District (Library), Lisle, Illinois provides services primarily to citizens of the District of Lisle, Illinois, including lending or renting materials to adults and children to meet their informational, recreations, and educational needs. The government-wide financial statements are prepared in accordance with generally accepted accounting principles in the United States (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP in the United States for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Library's accounting policies established in GAAP in the United States and used by the Library are described below.

**REPORTING ENTITY**

The Library is governed by a publicly elected seven-member board of trustees. The board of trustees selects management staff and directs the affairs of the Library. In determining the financial reporting entity, the Library complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Library. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

**BASIS OF PRESENTATION**

**Government-Wide and Fund Financial Statements**

The government-wide Statement of Activities reports both the gross and net cost of the Library's functions. The Library's activities are supported by taxes and intergovernmental revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The financial transactions of the Library are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures. The Library accounts for all of its activities in governmental funds, with the emphasis in the fund financial statements being on the major funds.

Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures of either fund category) for the determination of major funds. The following fund types are used by the Library:

**Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Library:

*General fund* is the general operating fund of the Library. It is used to account for all financial resources, except for those required to be accounted for in another fund. The Library reports the General Fund as a major fund.

**BASIS OF PRESENTATION - Continued**

**Government-Wide and Fund Financial Statements - Continued**

**Governmental Funds - Continued**

*Special revenues funds* are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Library does not maintain any major special revenue funds.

*Capital projects funds* are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Library reports the Special Reserve Fund as a major fund.

**MEASUREMENT FOCUS AND BASIS OF ACCOUNTING**

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

**Measurement Focus**

On the government-wide Statement of Net Position and the Statement of Activities, the governmental activities are presented using the economic resources measurement focus as defined below.

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the “economic resources” measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

**Basis of Accounting**

In the government-wide Statement of Net Position and Statement of Activities, activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflows is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued**

**Basis of Accounting - Continued**

In the fund financial statements, funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Library recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty day availability period is used for revenue recognition for all other fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability/deferred inflow is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

**ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY**

**Cash and Investments**

For the purpose of the Statement of Net Position, the Library’s cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of purchase.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**Receivables**

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances include property taxes.

**Prepays**

Prepays are valued at cost, which approximates market. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

**ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued**

**Capital Assets**

Capital assets purchased or acquired with an original cost of \$2,500 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Library as a whole. When purchased, such assets are recorded as expenditures in the governmental fund and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements	20 - 40 Years
Library Materials	5 Years
Equipment and Furnishings	5 - 20 Years

**Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

**Compensated Absences**

The Library's policy allows employees of the Library District can accumulate up to 75 hours of vacation time that is payable upon termination. This liability is accounted for as a governmental activity on the government-wide Statement of Net Position. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

**ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued**

**Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

**NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**BUDGETARY INFORMATION**

Budgets and appropriations for all funds are prepared on the same basis and use the same accounting practices as are used in the fund financial statements. For each fund, total fund expenditures disbursed may not legally exceed the appropriated amounts. The budget lapses at the end of each fiscal year. The Library follows these procedures in establishing the budgetary data reflected in the financial statements:

- The Appropriation Ordinance is prepared in tentative form by the Treasurer and is made available for public inspection at least 30 days prior to final Board action. By the fourth Tuesday in September, a public hearing is held on the tentative Appropriation Ordinance to obtain taxpayer comments and pass the Ordinance in final form.
- The Board of Trustees may:
  - Adopt a supplemental Appropriation Ordinance for revenues which become available, or are estimated to become available, subsequent to the adoption of the annual Appropriation Ordinance.
  - After six months of the fiscal year, by two-thirds vote, transfer any appropriation item it anticipates being unexpended to any other appropriation item.
- The Library Board may accumulate and set apart, as reserve funds, for the purchase, construction, rental and/or repair of Library buildings and equipment, the unexpended balances of the proceeds annually received from taxes, not to exceed the statutory limits, provided the Library Board in its annual Appropriation specifies that a specific fund is to be or is being accumulated for this purpose.

The Library District does not use the encumbrance method of accounting. Budgetary funds are controlled by an integrated budgetary accounting system, in accordance with various legal requirements which govern the Library District.

**NOTE 3 - DETAIL NOTES ON ALL FUNDS**

**DEPOSITS AND INVESTMENTS**

The Library maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments."

Permitted Deposits and Investments - Statutes authorize the Library to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds.

The Illinois Metropolitan Investment Fund (IMET) is a non-for-profit investment trust formed pursuant to the Illinois Municipal Code. IMET is managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an Investment Company. Investments in IMET are valued at the share price, the price for which the investment could be sold.

Illinois Funds is an investment pool managed by the Illinois public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. The Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

**Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk**

**NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued**

**DEPOSITS AND INVESTMENTS - Continued**

**Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration of Credit Risk - Continued**

*Investments - Continued.* Debt Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Library's investment policy states the investment portfolio shall remain sufficiently liquid to enable the Library to meet all operating requirements that may be reasonably anticipated in any fund.

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Library's investment policy states investments may be made in any type of security allowed for by Illinois statutes regarding the investment of public funds. Section 30, Act 235 of the Illinois Compiled Statutes (ICLS), Public Funds Investment Act authorizes investment of public funds. At year-end, the Library's investment in the Illinois Funds is rated AAAM by Standard & Poor's, the investments in IMET rated AAAM by Standard & Poor's and the Convenience Fund is not rated. The ratings for the U.S. agencies and municipal bonds are not available.

*Custodial Credit Risk.* In the case of deposits, this is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library's investment policy states that funds on deposit in excess of insured limits (i.e., FDIC) have collateral pledged at not less than 100% of the uninsured value. Pledged collateral will be held in safekeeping by a third party. At year-end, the entire amount of the bank balance of deposits was covered by federal depository or equivalent insurance. For an investment, this is the risk that in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Library's investment policy does not specifically address custodial credit risk for investments. At year-end, the Library's investment in the Illinois Funds and IMET are not subject to custodial credit risk.

*Concentration of Credit Risk.* This is the risk of loss attributed to the magnitude of the Library's investment in a single issuer. The Library's investment policy states funds should be diversified to the best of the Library's ability by limiting investments to avoid overconcentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities), limiting investment in securities that have higher credit risks, investing in securities with varying maturities, and continuously investing a portion of the portfolio in readily available funds such as local government investment pools and money market funds to ensure that appropriate liquidity is maintained in order to meet ongoing obligations. At year-end, the Library does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

**PROPERTY TAXES**

Property taxes for 2020 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by DuPage County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 1% of the tax levy, to reflect actual collection experience.

**LONG-TERM DEBT**

**Long-Term Liability Activity**

Changes in long-term liabilities during the fiscal year were as follows:

Type of Debt	Beginning Balances	Additions	Deductions	Ending Balances	Amounts Due within One Year
Compensated Absences	\$ 50,067	280	140	50,207	10,041

The compensated absences are generally liquidated by the General Fund.

**FUND BALANCE CLASSIFICATIONS**

In the governmental funds financial statements, the Library considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Library first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance.* Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

*Restricted Fund Balance.* Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance.* Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Library's Board; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

**FUND BALANCE CLASSIFICATIONS - Continued**

*Assigned Fund Balance.* Consists of amounts that are constrained by the Library’s Boards’ intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Library’s Board itself or b) a body or official to which the Library’s Board has delegated the authority to assign amounts to be used for specific purposes. The Library’s highest level of decision-making authority is the Library’s Board, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance.* Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

*Minimum Fund Balance Policy.* The Library’s policy manual states that the General Fund should maintain a minimum fund balance equal to six months of budgeted operating expenditures. All other funds should maintain a minimum of three months of budgeted expenditures.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

	General	Capital Projects Special Reserve	Nonmajor	Totals

**RISK MANAGEMENT**

The Library is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Library carries commercial insurance for all risks of loss including worker's compensation and employee health insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in the past three fiscal years.

**CONTINGENT LIABILITIES**

**Litigation**

The Library is not a defendant in any lawsuits.

**Grants**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Library expects such amounts, if any, to be immaterial.

**Financial Impact from COVID-19**

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the Library's operations and financial position cannot be determined.

**EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN**

**Illinois Municipal Retirement Fund (IMRF)**

The Library contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at [www.imrf.org](http://www.imrf.org). The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

**Plan Descriptions**

*Plan Administration.* All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

*Benefits Provided.* IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

*Benefits Provided - Continued.* Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Plan Membership.* As of December 31, 2020, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	59
Inactive Plan Members Entitled to but not yet Receiving Benefits	37
Active Plan Members	<u>38</u>
Total	<u><u>134</u></u>

*Contributions.* As set by statute, the Library's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended June 30, 2021, the Library's contribution was 7.95% of covered payroll.

*Net Pension (Asset).* The Library's net pension (asset) was measured as of December 31, 2020. The total pension liability used to calculate the net pension (asset) was determined by an actuarial valuation as of that date.

*Actuarial Assumptions.* The total pension liability was determined by an actuarial valuation performed, as of December 31, 2020, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.25%
Inflation	2.25%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

*Actuarial Assumptions - Continued.*

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	28.00%	1.30%
Domestic Equities	37.00%	5.00%
International Equities	18.00%	6.00%
Real Estate	9.00%	6.20%
Blended	7.00%	2.85% - 6.95%
Cash and Cash Equivalents	1.00%	0.70%

**Discount Rate**

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Library contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

**Discount Rate Sensitivity**

The following is a sensitivity analysis of the net pension (asset) to changes in the discount rate. The table below presents the net pension liability of the Library calculated using the discount rate as well as what the Library's net pension (asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)

**OTHER POST-EMPLOYMENT BENEFITS**

The Library has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Library are required to pay 100% of the current premium. However, there is minimal participation. As the Library provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions*. Therefore, the Library has not recorded a liability as of June 30, 2021.
